## 1. INTRODUCTION

This is the (draft) BSL Local Plan for NHS Western Isles Board, as required by BSL (Scotland) Act 2015. It sets out draft actions this Local NHS Board will take over the period 2019-2024.

It follows the BSL National Plan, published 24 October 2017, which was developed through extensive engagement with Deaf and Deafblind BSL users and those who work with them. There is more information about the National Plan in Section 6 of this Draft Plan. This local Plan is framed around the same long-term goals as the BSL National Plan.

This Plan falls within the context of NHS Western Isles's Equality and Human Rights Policy and the duty of care incumbent on us therein to protect and promote the rights and dignity of all those vulnerable groups who access our services. The aspirations set out here seek to be aligned to the Policy's principles of enablement and empowerment, parity of access, involvement and participation. NHS Western Isles therefore are committed to protecting and supporting BSL users in our patient body, and to raising awareness of the status of BSL as enshrined in the BSL (Scotland) Act 2015. This wider understanding and harnessing of BSL is consistent too with the goals of Include Us All, Scotland's inclusive communication hub for fostering greater participation in public life.

NHS Western Isles is committed to safeguarding and supporting BSL, including in its tactile form.

The insights of S/N Sharon Smith of the Western Isles Hospital have informed the development of this Plan in a most positive manner. Liaison has also been made with advocates for the local deaf community at the Western Isles Sensory Centre re: their opinions. NHS Western Isles is committed to continued engagement with these, and other interested parties, to best achieve implementation of these actions and to provide feedback on progress. In relation to national evaluation, NHS Western Isles will review this Local Plan in 2021.

All comments and feedback on the contents of this draft plan are welcomed. If you would like to comment on this draft Plan you can do this in a number of ways.

Comments can be submitted in writing to the address here:

All comments and responses to this Draft Plan should be received no later than **18<sup>th</sup> January 2019**.

The Executive Officer within NHS Western Isles for overall responsibility for the BSL Local Plan is Mr William Findlay, Nursing and Allied Health Professions Director.

APPROVED APRIL 2019

## **SECTION 3:**

### **SHORT SUMMARY OF THE PLAN**

This Plan has been compiled with a view to our BSL community having a richer and more meaningful involvement in daily and public life in the Western Isles. It will lay out ways in which their contribution to our civic life as healthy, active citizens can be improved and by giving them the facility of enhanced choice about their lives, particularly in the area of health and wellbeing. This complies with the aspirations of the BSL National Plan for Scotland 2017-23 and with the 2010 Equality Act Disability Protected Characteristic.

This Draft Plan is presented as a contribution to the multi-agency collaboration intrinsic to the Western Isles Sensory Locality Plan currently being formulated. It is therefore hoped that it will inform the planned improvements in our archipelago in a positive & realistic manner, as we engage with the sensory-impaired community and our colleagues.

APPROVED APRIL 2019

## SECTION 4:

### LOCAL PLAN COMMITMENTS FOR LOCAL NHS WESTERN ISLES BOARD

#### **4.1: Across all our services**

We share the long-term goal for all Scottish public services set out in the BSL National Plan, which is:

**“Across the Scottish public sector, information and services will be accessible to BSL users.”**

#### **Our Actions:**

##### **By 2023, we will:**

[2] Analyse existing evidence we have about BSL users in our organisation; identify and fill key information gaps so that we can establish baselines and measure our progress.

[3, 4] Improve access to our information and services for BSL users, including making our website more accessible to BSL users. This can include the harnessing of resources such as the Text Hear smartphone voice recognition app, which converts speech to text, in addition to the text relay service referred to in Section 4.5.

[5] Promote the use of the Scottish Government’s nationally funded BSL online interpreting video relay services (VRS) called ‘contactSCOTLAND-BSL’ to staff and to local BSL users. This is a free service which allows BSL users to contact public and their sector services and for these services to contact them.

[6] Signpost staff who work with BSL users to appropriate BSL awareness training.

## **4.2: Family Support, Early Learning and Childcare**

We share the long-term goal for family support, early learning and childcare set out in the BSL National Plan, which is:

**“The Getting it Right for Every Child (GIRFEC) approach will be fully embedded, with a D/deaf or Deafblind child and their family offered the right information and support at the right time to engage with BSL.”**

### **Our Actions**

#### **By 2023, we will:**

Provide early years staff with information about BSL and Deaf culture, and about resources that are available in BSL, so that they can meet the needs of families with a D/deaf or Deafblind child.

These screening, monitoring and supportive duties on the part of our Health Visitors and School Nurses will be congruent with the Universal Health Visiting Pathway for Scotland and the Scottish Sensory Centre Scottish Standards for Deaf Children. Our colleagues will also be sustained here by the parameters of the Scottish Government December 2017 guidance on Supporting Children and Young People with Healthcare Needs in Schools.

### **4.3: Training, Work and Social Security**

We share the long-term goal for training, work and social security set out in the BSL National Plan, which is:

**“BSL users will be supported to develop the skills they need to become valued members of the Scottish workforce, so that they can fulfil their potential, and improve Scotland’s economic performance. They will be provided with support to enable them to progress in their chosen career.”**

#### **Our Actions**

**By 2023, we will:**

Work with partners who deliver employment services, and with employer groups already supporting employability to help signpost them to specific advice on the needs of BSL users.

Raise awareness locally of the UK Government’s ‘Access to Work’ (AtW) scheme with employers and with BSL users (including those on Modern Apprenticeships) so that they can benefit from the support it provides.

Meet the obligation incumbent on us in the Public Sector Equality Duty under the 2010 Equality Act to make reasonable adjustments for our staff with aural impairments, in order to maximise their contribution to, and sense of purpose in, our workplace.

This will support the NHS Scotland Partnership Information Network (PIN) Guideline on Management of Employee Capability and the proposals emanating from the Scottish Government’s April 2018 Increasing the Employment of Disabled People in Work consultation.

### **4.4: Health (including social care), Mental Health and Wellbeing**

We share the long-term goal for health (including social care), mental health and wellbeing set out in the BSL National Plan, which is:

**“BSL users will have access to the information and services they need to live active, healthy lives, and to make informed choices at every stage of their lives.”**

#### **Our Actions**

**By 2023, we will:**

Signpost BSL users to health and social care information available in BSL and b.) develop complementary information in BSL about local provision, as appropriate.

These will include the information signing videos on the websites of NHS Inform, Macmillan Cancer Support, the British Deaf Association and Sign Health on a range of health conditions and concerns. Attention should also be drawn to the signing videos produced by NHS Greater Glasgow and Clyde on mental health signs and symptoms.

Continue to raise awareness with our partners, including the Dental Hospital, of our online BSL video relay interpreting facility located in the Western Isles Hospital, for using with our BSL patients who have clinical appointments. This was launched early in 2018, following an extension to our Service Level Agreement with LanguageLine. This harnesses Language Line's in-house BSL video relay interpreting service, InSight, which we will be adopting in place of SignLive.

Provide training demonstrations of the InSight Interpreter on Wheels with its BSL interpreting on demand.

Seek clarity on funding sources that might be available to increase the enlisting of our staff in BSL Levels 1&2 classes, such as Skills Development Scotland Individual Training Accounts (formerly known as Individual Learning Accounts).

Encourage our staff to complete the eLearning Turas Learn/LearnPro Deaf Awareness module. This can be undertaken as part of New Staff Induction or within Continual Professional Development activities.

Signpost health and social care staff, both acute and community, to an online learning resource toolkit to raise awareness of BSL and Deaf culture. This will be led by NHS Health Scotland and Deaf Scotland (formerly Scottish Council on Deafness) and will be rolled out across Scotland by 2018.

<https://elearning.healthscotland.com/course/view.php?id=539>

Liaise with organisations such as the British Deaf Association Scotland or Signs4Life re: the provision of awareness & basic skills sessions for staff on deafness & BSL. These can be delivered in person or remotely utilising technology, which can be more cost effective. We will keep the Western Isles Sensory Centre informed of these at the same time, as their knowledge of trainers in the field is also beneficial.

Direct staff contemplating taking up BSL classes to the British Sign Language Dictionary's *Sign BSL* smartphone app, available free on both Apple's App Store and Google Play for Android phones. This word and phrase searchable resource contains over 20,000 BSL signed videos for vocabulary needs.

Invest in two textphones for the Western Isles Hospital, at Outpatients/Medical Records & at the Patient Travel Office in the Health Board Offices, with staff training on their usage.

Create a generic email address for Outpatients Appointments in addition to the telephone number given in the appointment letters. This would make it easier for patients with hearing impairments to request a different appointment time or for other queries they might have, given the challenges of the telephone. Physiotherapy and Patient Travel already have a generic email address for patient & public queries, which is working very well for hearing impaired patients.

Improve individual patient health records so that they clearly show when the first or preferred language is BSL and a BSL / English Interpreter is needed. This should be readily seen on the patient's *Emergency Care Summary* in the first instance. The patient has the right to view these records through the new European General Data Protection Regulation (GDPR) obligation in relation to information storage.

Through the Western Isles Integrated Joint Boards, ensure that psychological therapies can be offered on a fair and equal basis to BSL users. Consider the treatment options and the access for those options. This is in line with the Scottish Government's Scotland's Mental Health Strategy 2017-2017, and will supplement the signed mental health information resources highlighted above.

Leaflets & posters highlighting the resources & support available at the Western Isles Sensory Centre to be distributed to all NHSWI clinical areas, to improve signposting to patients by staff of the facility.

Mark Deaf Awareness Week annually, held in May each year, with a publicity campaign and information stalls locally with our partners to raise awareness and understanding.

Support and work with NHS Health Scotland to implement a new national Interpretation and Translation Policy which includes BSL provision. The guidance will be provided to support delivery across all NHS Boards by 2018.

Work with the Western Isles Council to take steps to improve access to information about sport, and to local sports facilities and sporting opportunities.

Ensure that any local work to tackle social isolation explicitly considers the needs of BSL users. Raising awareness about the Lewis and Harris Deaf Club, which meets monthly at the Western Isles Sensory Centre, will be a key component of this.

APPROVED APRIL 2019

## 4.5: Transport

We share the long-term goal for transport set out in the BSL National Plan, which is:

**“BSL users will have safe, fair and inclusive access to public transport and the systems that support all transport use in Scotland.”**

### Our Actions

#### By 2023, we will:

Ensure BSL users can participate in the on-going feedback process of the ‘Going Further: Scotland’s Accessible Travel Framework’ as individuals and staff.

Ensure that the booking ambulance transport section of the appointment letters sent to patients by NHSWI Patient Services contain the Next Generation Text contact number for BSL patients who need to use the text relay service for making bookings via textphones.

Consider improved financial support for families of patients who are travelling to Crosshouse Hospital in Ayrshire for cochlear implant assessments. This follows the closure of the on-site accommodation unit in 2018, with now a bus journey of half an hour between the arranged hotel and the hospital. The number of NHSWI patients being sent to Crosshouse Hospital by our ENT Consultants for cochlear implant assessments has increased.

Create guidance for passengers and staff who use BSL on how to contact local / national transport providers when things go wrong on a journey.

Commission and deliver training for transport providers such as our ambulance colleagues which includes strategies for communicating with BSL users (patients and staff).

## 4.6: Democracy

We share the long-term goal for democracy set out in the BSL National Plan, which is:

**“BSL users will be fully involved in democratic and public life in Scotland, as active and informed citizens, as voters, as elected politicians and as board members of our public bodies.”**

This undertaking is integral to the ethos of the 2010 Equality Act. Diversity in public life, and ensuring the participation of people from all types of backgrounds including those protected by the equality laws, enhances the decision-making processes and provides for greater accountability. It is also vital to people’s sense of status and belonging as well as helping to counteract negative attitudes and behaviours that different groups might experience.

### Our Actions

#### By 2023, we will:

Take opportunities to promote public appointments as a way of participating in public life by producing information about public appointments in BSL, and promoting public appointments specifically to BSL users.

As a result of amendments made to the Equality Act Specific Duties in 2016, each listed public authority is expected to include in the mainstreaming reports that are published every two years as part of the requirements of the Equality Act 2010 (Specific Duties) (Scotland) Regulations 2012 details of the steps they plan to take across all relevant protected characteristics to promote member diversity.

## **SECTION 5:**

### **WHAT HAPPENS NEXT?**

Please contact Mr Murdo Macleod, NHSWI Operational Diversity Lead, if you wish to continue to be involved with NHSWI as we further develop/implement the actions in our Plan. He can be contacted by telephone on 01851 704704 Ext 2408 or via email at [murdomacleod1@nhs.net](mailto:murdomacleod1@nhs.net). Mr Macleod will be glad to meet with anyone with an interest in this work.

## SECTION 6:

### ADDITIONAL INFORMATION

#### 1.) See Hear Strategy

The **Scottish Government** is committed to **improving the services, support and care available to people who have deafness, sight loss, and dual sensory loss**. Our long-term strategy, 'See Hear', commits to ensuring that children, young people and adults have the same access to opportunities and public services as everyone else, including health care, social care, employment, education, and leisure. The strategy was jointly endorsed by **COSLA** (Convention of Scottish Local Authorities) and is being implemented through local partnerships of statutory and third sector organisations. Local See Hear leads are in place to identify priority areas and drive forward the delivery of the Strategy locally.

More information on the priorities and vision in the **See Hear Strategy** is available at this link: <http://www.gov.scot/Publications/2014/04/7863>

For further information, please contact **Jonathan Reid**, Sensory Impairment Strategy Coordinator at The ALLIANCE ([jonathan.reid@alliance-scotland.org.uk](mailto:jonathan.reid@alliance-scotland.org.uk)) and **Dr Julie Carr**, Care, Support & Rights Team at The Scottish Government ([Julie.Carr@gov.scot](mailto:Julie.Carr@gov.scot)).

#### 2.) contactSCOTLAND-BSL

- a.) The **Scottish Government** has introduced and funded the **first nationally funded public sector online British Sign Language (BSL) Interpreting Video Relay Service (VRS)** called **contactSCOTLAND-BSL**, which provides **BSL users with access to public bodies and third sector organisations** including voluntary services – this includes services provided by **NHS Scotland and Local NHS Boards**.  
contactSCOTLAND-BSL enables BSL users to contact public bodies and third sector organisations, and for these services to contact BSL users.
- b.) contactSCOTLAND-BSL is **delivered by Sign Language Interactions (SLi)** on behalf of The Scottish Government.
- c.) **NHS services and professionals can use** contactSCOTLAND-BSL to contact BSL users, for example to set up and confirm appointments, confirm BSL / English Interpreters are booked for appointments, and discuss other relevant information that is appropriate for a telecommunication interaction.
- d.) contactSCOTLAND-BSL is **designed for calls up to a notional 20 minutes in length**.
- e.) contactSCOTLAND-BSL provides a **7 day a week service from 8.00am until midnight (12.00am)**. It is **NOT** 24 hours.
- f.) contactSCOTLAND-BSL is **NOT a replacement for face-to-face** or person-to-person interpreting / interaction.
- g.) contactSCOTLAND-BSL is for **non-emergency calls only**. However, as the service accepts calls to NHS 24 and Police Scotland 101 these may be escalated by NHS / Police call handlers.
- h.) Sign Language Interactions (SLi) can provide (on request) **training** on how to use contactSCOTLAND-BSL. There is an eModule learning resource being developed, this will be available from March 2018.

More information on **contactSCOTLAND-BSL** is available at this link:  
<http://contactscotland-bsl.org>

For further information, please contact **Andrew Dewey**, Director at Sign Language Interactions (SLi) ([andrew@signlanguageinteractions.com](mailto:andrew@signlanguageinteractions.com)) and **Andy Irvine**, contactSCOTLAND-BSL Development Manager at Sign Language Interactions (SLi) ([andy.i@signlanguageinteractions.com](mailto:andy.i@signlanguageinteractions.com)).

### 3.) Language Support Professionals (LSPs)

Language Support Professionals (LSPs) includes BSL / English Interpreters, Hands on BSL Interpreters, Deafblind Manual Interpreters, Deafblind Guide Communicators, Electronic Note-takers, etc.

Information for sourcing LSPs can be found on three websites:

- a.) The National Registers of Communication Professionals working with Deaf and Deafblind People (**NRCPD**): [www.nrcpd.org.uk](http://www.nrcpd.org.uk)
- b.) Scottish Association of Sign Language Interpreters (**SASLI**): [www.sasli.org.uk](http://www.sasli.org.uk)
- c.) The Association of Sign Language Interpreters (**ASLI**): [www.asli.org.uk](http://www.asli.org.uk)

Please consider using **registered BSL / English Interpreters** who have current membership (including current valid membership card with own photo ID) with either or both **NRCPD** and **SASLI**.

There are a number of agencies in Scotland that provides LSPs including BSL / English Interpreters, Electronic Note-takers, etc. – for further information, please contact **Scottish Council on Deafness** for a list of providers ([admin@scod.org.uk](mailto:admin@scod.org.uk)).

### 4.) The Scottish Cochlear Implant Programme, Crosshouse Hospital, Ayrshire

### 5.) Working with British Sign Language (BSL) / English Interpreter

#### **Working with a BSL / English Interpreter – 10 things you should know!**

If you are working with a **British Sign Language (BSL) / English Interpreter** for the first time or it is something you're considering, read the **common top ten (10) tips** on what to do:

##### **1. Book in advance**

Due to the demand and limited number of BSL / English Interpreters in Scotland, giving as much notice as possible is always really helpful. There are facilities for Online Interpreting which enables BSL users to communicate with staff while waiting for a face to face BSL / English Interpreter to arrive. (Check your Local NHS Board for Hospitals that provide Online Interpreting Services.)

## **2. Preparation**

When booking a BSL / English Interpreter, please provide as much information prior to the assignment as possible. Examples of preparation material – date, times, venue, context, people attending, etc. It is important that BSL / English Interpreters are as prepared as possible before going into an assignment, this allows the best possible service to be provided.

## **3. Duration of the meeting**

We understand that sometimes appointments and meetings can over run, but it's important to only use the time that you have booked with the BSL / English Interpreter as they usually have other bookings either side of the assignment.

## **4. One singer one song**

During the assignment, please try to ensure only one person is speaking at a time. The BSL / English Interpreter is only able to sign for or voice one person at a time.

## **5. Speed of speech**

Speak in your normal tone, at your normal pace. The BSL / English Interpreter will tell you if you need to pause or slow down.

## **6. Breaks**

If there is only one BSL / English Interpreter available (or booked), they will need breaks approximately every 30 – 45 minutes. However, this depends on the content of the assignment so it's always best to check with the BSL / English Interpreter.

## **7. Reading time**

If handouts or PowerPoint Presentation is being used it is impossible for the BSL user to read the handout and watch the BSL / English Interpreter at the same time. It's helpful to give the BSL user a few minutes to read the information before you start adding or explaining the document.

## **8. Explanations**

Try to avoid Acronyms, Abbreviations, Idioms and Initials as this can be hard for the BSL / English Interpreter to interpret if the meaning is not clear, so explain them as you use them.

## **9. Setting**

Room setting can really assist in an interpreting situation. It's not something that people usually think about, but it's best if the BSL / English Interpreter is not sat or stood against any bright lights / windows, and that they are positioned in the best place for the BSL user to see clearly. The acoustics can also make a difference depending on the situation.

## **10. Eye contact**

It is important to look at the BSL user with whom you're talking, rather than the BSL / English Interpreter. The BSL user in this situation will be looking at the BSL / English Interpreter to receive information of what's being said.

## 6.)BSL Translation / Filming

There are a number of services in Scotland that provide BSL translation / filming work – for further information, please contact **Scottish Council on Deafness (SCoD)** for a list of providers ([admin@scod.org.uk](mailto:admin@scod.org.uk)).

APPROVED APRIL 2019

## 7.) BSL (Scotland) Act 2015 Partners

The **BSL (Scotland) Act 2015 Partners** has been funded by the Scottish Government to support public bodies to implement the **British Sign Language (Scotland) Act 2015** for the **BSL National / Local Plans**.

The Partners are made up of five delivery partners and two support partners. The delivery partners are British Deaf Association Scotland (BDA Scotland), Deaf Action, Deafblind Scotland (DbS), National Deaf Children's Society Scotland (NDCS Scotland) and Scottish Council on Deafness (SCoD). The Scottish Government Equality Unit directs the Partners and the Voluntary Action Fund (VAF) provides support and monitoring.

**BDA Scotland – Helen Morgans-Wenhold**, Access & Inclusion Officer was allocated the responsibility of focusing on **Local Authorities** for the BSL National / Local Plans supporting Local Authorities.

**Deaf Action – Alison Hendry**, Participation Officer was allocated the responsibility of focusing on **Colleges & Universities** for the BSL National / Local Plans supporting Colleges & Universities.

**Scottish Council on Deafness (SCoD) – Derek Todd**, BSL Consultant was allocated the responsibility of focusing on **Health & National Listed Public Bodies including Sports** for the BSL National / Local Plans supporting all NHS organisations & other Health public bodies in Scotland including the local NHS Health Boards.
