My journey to diagnosis

Please bring this with you to each appointment

About the guide

This guide is aimed to be of benefit to NHS Western Isles patients, their families and carers, before a diagnosis is given.

All comments/feedback you provide are important and will help us to identify whether this resource will continue to be used and, if so, what additions/amendments should be made.

Any comments/feedback for this guide should be sent to:

Denise Symington
Patient Focus & Public Involvement
NHS Western Isles
37 South Beach Street
Stornoway
Isle of Lewis
HS1 2BB

Tel. 01851 708069 or 07814 071868 (Mon-Fri 9am-5.30pm).

Email: denise.symington@nhs.scot

We understand how difficult it can be to understand and process all the information you may receive at your clinical appointments.

This guide is to help you record the information you receive at each of your clinical appointments before a diagnosis is given.

The following sections will help you record information given to you, or that you may be asked, during your clinical appointments:

- your personal details
- your medical details
- any prescriptions or medications you are currently taking (if requested, your GP may be able to provide you with a printout of your medications)
- future appointment details
- contact names and numbers.

It is important to note that during your appointments you will be discussing possible illness and testing options, so you may not be able to fully comprehend or remember to write down all the information you receive.

You may find it invaluable to have a friend or family member with you so that they can help support you and write down the information you receive on your behalf.

At any time if you require assistance, or have any questions, please do not hesitate to ask.
