

News page issues

<https://www.wihb.scot.nhs.uk/news/>

#	Issue and description	Retest notes	Organisation update
1	WCAG 1.4.4 Resize Text At 200% zoom, once expanded, the calendar pop ups under 'From' and 'To' are partially cut off	This is still an issue	
2	WCAG 1.4.3 Contrast (minimum) There are elements across the webpage that do not have sufficient colour contrast. This includes; <ul style="list-style-type: none">the page heading 'News'the link 'News' within the breadcrumb menulinks along the top of the webpage, including 'I am a patient'. This includes when the mouse hovers over themlinks in the footer when the mouse hovers over them. This includes 'Accessing Health Records', 'News', 'Sitemap' and 'Accessibility'all 'Published on' text under each linkthe heading 'Filters'the row of numbers and 'Read more' links at the bottom of the webpagethe news articles across the webpage when the mouse hovers over them	<ul style="list-style-type: none">the row of numbers and 'Read more' links at the bottom of the webpage. This is still an issue on the number along the bottom of the webpage.the news articles across the webpage when the mouse hovers over them <p>These issues are still outstanding</p>	

Your statement

#	Issue	Notes	Organisation update
1	The compliance status does not match the results of our testing or is not using the correct wording.	Your accessibility statement mentions version 2.1 of WCAG but the legal standard is WCAG 2.2	
2	Known accessibility issues are not included within the 'non-accessible content' section. You need to review your accessibility statement to cover the issues found in this report and any others found during your own audit.	Please include all outstanding issues under 'Non-compliance with the accessibility regulations'. This is still missing	
3	The non-accessible content does not say which WCAG criteria it fails.
