

DIABETIC EYE SCREENING

location change

Appointments for diabetic eye screening in the Western Isles will now be held at your local hospital.

- Western Isles hospital
- Ospadal Uibhist agus Bharraigh
- St Brendan's Hospital

This will mean you will be able to access diabetic eye screening at the same location as many of the other services you use, and arrange hospital transport for your appointment if needed.

If you have a question regarding your diabetic eye screening appointment, please contact the Diabetes Centre on 01851 708331 or wi.drs@nhs.scot
